

# **Workshop CARDIFF / UNICAMP**

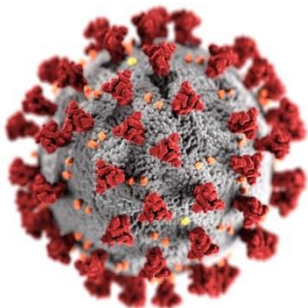

## **Immunology of virus infection**

**February 08th, 2023**

**Opening ceremony 08:30 AM**

**Final Remarks 12:50 PM**

**Institute of Biology – UNICAMP**  
**Sala IB22– Pós-graduação (Bloco 0)**

## Scientific Program

**08:30 - Opening Cerimony** - Prof. Dr. Plinio Trabasso (FCM/UNICAMP)

**08:40 - Memories of COVID-19** - Prof. Dr. David Price (School of Medicine/Cardiff)

**09:40 - SARS-CoV-2 uses CD4 to infect T helper lymphocytes** - Natália Brunetti (IB/UNICAMP)

**10:00 - Virus-induced inflammation** - Prof. Dr. Ian Humphreys (School of Medicine/Cardiff)

**10:30 – Interval**

**10:50 - Viral evasion of Natural Killer cells** – Prof. Dr. Ceri Fielding (School of Medicine/Cardiff)

**11:20 - Early innate and adaptive immune reponses by B lymphocytes during Oropouche virus infection** - Daniel Teixeira (IB/UNICAMP)

**11:40 - Metabolic-trained immunity potentiates SARS-CoV-2 inflammation** - Dra. Bianca Castelucci (IB/UNICAMP)

**12:00 - Screening of steroidal compounds with potential activity against SARS-CoV-2** - Alexandre Borin (CNPEM)

**12:20 - ADCC in Virus infection** - Prof. Dr. Richard Staton (School of Medicine/Cardiff)

**12:50 - Final Remarks**
